Rinnai EL

Electric Fireplace

Luxury Ignited

Make a statement with the Rinnai EL Electric Fireplace, redefining home luxury with elegance and innovation. Designed to captivate, it features ultra-realistic flames powered by Truburn Flame Technology, dynamic glowing logs, and immersive sound effects that evoke the ambiance of a real fire.

With no flueing required, installation is effortless, simply plug in and transform any space into a refined sanctuary.

Smart control and voice integration allow seamless operation, while customisable flame effects let you tailor the atmosphere to suit your style. Available in four sizes (1000mm to 1800mm), and with 2kW & 3kW heating capacities*, the Rinnai EL range adapts to contemporary interiors with ease.

More than a fireplace, it's luxury ignited.

- Ultra-realistic customisable flames
- Advanced heating options (2kW and 3kW models*)
- Dynamic fuel bed with realistic glowing logs
- High-quality speakers deliver authentic fire sounds
- Versatile size options (1000mm - 1800mm)
- Smart control and voice integration

Rinnai EL 1000mm (EL 1000) - Front Installation

*2kW heating capacity: EL1000, EL1300. 3kW heating capacity: EL1500, EL1800.

Rinnai EL 1800mm (EL 1800) - Front Installation

Features and Benefits

Aesthetics

Ultra-realistic flames
Truburn Flame Technology projects high-definition videos of real wood fire flames, smoke, and sparks onto angled glass, creating a visual masterpiece.

Customisable visual features
Create your perfect mood with 4 flame styles, 9 log colours, 9 fuel bed colours, and adjustable brightness settings to suit any style.

Dynamic fuel bed with realistic glowing logs
Featuring our most realistic logs yet, with internal illumination that mimics the charring and glow of a real fire for elevated authenticity.

Versatile size options (1000mm - 1800mm)
With four size options (1000mm, 1300mm, 1500mm, and 1800mm), you can effortlessly find the ideal Rinnai EL to complement your space.

Versatile installation choices
Unlike traditional gas and wood fireplaces, the Rinnai EL Electric Fireplace requires no vents or flues, allowing for installation in a Front, Corner, or Panoramic configuration.

Additional trim options available
Optional 25mm slim and 50mm wide trim (available as an optional additional purchase).

Technology

Advanced heating options
Available in 2kW (1000mm & 1300mm) and 3kW (1500mm & 1800mm) models, the Rinnai EL range delivers efficient heating with thermostatic control and a cool blow function for year-round comfort.

High-quality speakers deliver authentic fire sounds
High-quality speakers deliver realistic fire crackling sounds, adding a multi-sensory experience to your home.

Smart control and voice integration
Control your fireplace effortlessly with voice commands, smart device integration, or the easy-to-use remote.

Open window detection mode for optimised energy efficiency
This smart feature detects open windows and adjusts heating accordingly, preventing energy waste while maximising cost savings and efficiency.

'Favourite' mode to save preferred flame/fuel bed settings
Save your ideal flame, log, and fuel bed settings with one touch, so you can quickly recreate your perfect ambiance whenever you like.

Hourly timer mode
Enjoy lasting warmth with automatic shut off after a set period, letting you relax without the need to remember to turn it off manually.

7-day programmable timer with adaptive smart heating
Program the fireplace to suit your schedule, with smart heating that adapts to your routine, offering energy efficiency and convenience.

Experience Truburn Flame Technology

Truburn Flame Technology elevates the electric fire experience to a whole new standard with technology that produces incredibly realistic, dynamic flames that dance just like a real fire.

The Truburn system features glowing logs that radiate warmth, paired with intricate sound effects to mimic the crackling ambiance of a traditional fire.

At the heart of this innovation is a uniquely crafted log arrangement that works seamlessly with the flame design.

High-definition videos of real wood fire flames are expertly mapped to the contours of the logs, creating a mesmerising, life-like effect through precise projection onto an internal glass panel.

Whether you choose a Front, Corner, or Panoramic installation, our Truburn technology guarantees an unmatched level of realism and an elegant touch to any room.

High-Definition Wood Fire Flames

An advanced LCD screen expertly projects high-definition videos of real wood fire flames onto the internal glass panel, delivering a stunningly realistic fire effect.

Realistic Flames, Sparks and Smoke

Lifelike flames, drifting smoke, and glowing sparks work together to replicate the mesmerising ambiance of a traditional wood-burning fire.

Internal Glass Panel

The internal angled glass design enhances depth, realism and precision of the projected flames to create a more immersive and dynamic flame display.

Glowing Logs

The Truburn system features glowing logs that emit a warm, natural glow, enhancing the authentic look and feel of a real fire.

Instant Heat at Your Fingertips

The Rinnai EL Electric Fireplace is designed with convenience in mind, offering four intuitive control options for ultimate flexibility and seamless operation.

The Rinnai EL fireplace can be conveniently controlled in four ways:

Multi-Function Panel
Manual control using the multi-function panel discretely located on the appliance

Remote Control
With the intuitive remote control handset

Smart Device
Control via the app using your smart device, (such as phone or tablet) using Wi-Fi connectivity

Voice Control
Effortlessly adjust settings with simple voice commands

With built in Wi-Fi connectivity, enhance your user experience with our smart app enabling you to control your appliance from anywhere. The app allows you to set tailored programs, schedule on/off times, set temperatures, design custom light effects, plus much more.

The quick start heat option allows you to select low heat, high heat, or cool blow at the touch of a button. Whilst adaptive smart heating allows you to schedule the exact time and date you wish to heat your room, automatically adjusting the environment to reach and maintain the desired temperature.

Smart Technology

With Rinnai, the combination of functionality and smart technology and added voice control using Amazon Alexa and Google Assistant creates the ultimate home heating experience. Your appliance will synchronise with your smart device, such as phone or tablet, putting you in complete control. The latest sensor technology helps to create our most efficient appliance ever, ensuring that the room is heated to the correct temperature at the correct time with optimum energy usage.

We are committed to a sustainable future, ensuring that our appliances make the most efficient use of energy. All Rinnai appliances benefit from temperature detection and regulation technology; if there is sudden drop in room temperature, perhaps caused by an open window or door. The open window detection mode identifies open windows and doors, and adjusts heating accordingly to prevent energy wastage.
