

Mt Blanc Rebellion Tunnel 970

Introducing the Mt Blanc Rebellion Tunnel fireplace, where bold design meets revolutionary style. Embrace the spirit of innovation with our freestanding, modern industrial hearths, designed to elevate any space to new heights of luxury and sophistication.

15.9kW

Nominal Power Output

80%

Average Efficiency EU

4.5kg/h

Hourly Consumption

Special Features

- Steel construction
- UHT-HYDRO aqueous non-smoking paint
- Double sided glass
- Thermodynamic firebox with latest ribbed lining
- Cast iron or ceramic grate
- Adjustable height configuration
- Single handle air regulator
- Three-stage combustion system
- Heat bank optionality
- External air supply possible
- High glass purity
- Neutral vermiculite interior, optionally painted black

Dimensions

Overall

Width	970mm
Height	1320-1550mm
Depth	535mm
Weight	185-330kg

Firebox Opening

Width	860mm
Height	480mm

Firebox Internal Dimensions

Width	780mm
Depth	360mm
Height	480mm

Glass Door Dimensions

Width	762
Height	372

Hearth Dimensions

Width	1270mm
Depth	650mm*
Height	380mm

*Base of fire door 380mm from hearth level. Refer to Maison Fireplaces if door base is higher.

Flue Specifications

Diameter	8 inch
Type	RSF Fully Insulated

Optional Extras

Painted Black Interior Vermiculite

Akumol heatbank blocks (2)

Clearances

Combustible Wall

All around**	1200mm
--------------	--------

**With use of a heatshield in accordance to AS/NZS 2918:2021, you can reduce wall clearances. Refer to Maison Fireplaces for more details.

Fire Proofing

Material Thickness

Hebel	75mm
Skamol	100mm

Certification

•AS/NZS 4012/4013 (2014) (Australia)

IMPORTANT NOTE: According to the AS/NZS 4012/4013 efficiency, 9 logs (16.8Kg) were used for testing. The manufacturers recommendation is 3-4 logs (4-5Kg) which will result in higher efficiency and less wood used while achieving same heat output.
